

## Show Me Readers Award Program

The **Show Me Readers Award Program** is a state-wide children's choice reading program for children in first-third grades, as well as other students who are reading and listening to picture books. It is sponsored by the Missouri Association of School Librarians. Students participate by reading or listening to at least six books from a list of 10 quality picture books that have been selected by teachers and librarians around the state. Students then vote for their favorite book to help choose the new winner.

MSB students who participate in the Show Me Readers Award Program are rewarded with an all-day field trip to the St. Louis Storytelling Festival in the spring. They also receive a certificate from the Missouri Association of School Librarians. The author of the book which receives the most votes statewide receives a special award.
